 - * General Contractor Accountant Chemical Engineer
 - * Construction Manager Supplier/Manufacturer Environmental Engineer
 - * Sub/Specialty Contractor Owner Representative Landscape Architect
- Other (Describe): * Government - Commissioner of Public Works

I have substantial experience in the following types of construction:

Earth Retaining Systems Electrical Systems Environmental

Foundation Highway Landscaping

Marine Mechanical *Tunnel

Other (Describe):

E. Qualification Statement

Candidates shall have substantial experience in or directly related to public agency highway and bridge construction projects with or on behalf of federal, state, or local government agencies, particularly MDOT. Experience shall be a minimum of 10 years in active involvement, supervision, or management of public agency highway and bridge construction contracts

preferably with an emphasis in resolution of disputes arising out of said contracts.

Provide a 500 word or less statement of your qualifications that explain how you meet the aforementioned criteria:

Qualifications are from over 40 years in all facets of heavy construction from planning, designing, resident engineering in private and government sectors. DRB assignments allows my reviews and observations experienced as Construction Contractor, Consultant and Public Works Commissioner. Results of past DRB's have been successful since disputes were often settled prior to Hearings, those requiring formal Hearing, were settled.

Some examples of my varied positions are:

Independent Consulting Engineer - Consulting issues related to heavy construction and underground projects - Value engineering, Dispute Resolution Boards, constructibility, feasibility, risk analyses and alternatives studies.

Jacobs Engineering - Civil Works, *Director*, Field Operations, Construction Management heavy construction projects.

Westchester County NY, DPW, *Commissioner* - Oversight of infrastructure facilities (population 1 million). Supervised 400 employees in design, maintenance and operation. Construction supervision of bridges, roads, sewage treatment plants and buildings.

MacLean Grove & Company, *Vice President* - On-site project manager for deep tunnel and cavern construction in NY, Boston and Washington DC for subway projects and NYC Water Tunnel #3. Contract management underground heavy construction.

DeLeuw Cather (now Parsons Transportation Group), *Deputy Design Director* - Planning, design and construction supervision of the NYC 2nd Avenue Subway.

Coakley & Booth Inc., *Vice President* - Designed and supervised construction for substructure contractor of temporary retaining structures, underpinning and foundations.

U.S. Navy Public Works, 3rd Naval District, Resident Engineer, Reconstruction of Dry Dock 3. Director, Civil Branch Manager for design of military site infrastructure at 3rd Naval District.

In addition, I am active in engineering and planning societies and conferences, and government organizations. These affiliations allow access to current criteria and investigative studies. My consulting work includes many assignments for determining infrastructure contract's scope and causes of failures. The work often was via participation on Expert Review Panels. Several examples:

SR 520 Phasing and Staging, Expert Review Panel for Bridge Replacement & HOV Program, Washington DOT, Seattle WA. Panel member to review, analyze and recommend alternatives for state arterial highway, bridge expansion and reconstruction program.

CRA-CEVP Workshop Team member – Alaskan Way Viaduct Replacement Project, Washington Dept. of Transportation, Seattle. Cost Risk Assessment (CRA) and Cost Estimate Validation Process CEVP) to review designs, constructability and alternatives for large diameter soft-ground tunnel replacing 4-lane State Route 99 viaduct.

Value Engineering Team member – NYS DOT Gowanus Expressway I-278 Viaduct Rehabilitation project.

Value Engineering for West Toronto Diamond Rail Grade Project, GO Transit, Toronto, ON. Member of Value Engineering Team for construction of new grade crossing eliminating the diamond intersection of CN and CP Railroads.

Geotechnical Advisory Board, Fulton Street Transit Center, MTA, NY. Chairman of GAB for preliminary design by Arup, et al, for lower Manhattan multi-subway lines underground pedestrian connector

Combined Sewer Overflow, Portland, OR. Value Engineering Team member of the Value Engineering Team for the proposed CSO project.

Value Engineering for East-West Corridor Tunnel, Miami, FL for the Florida Department of Transportation. Member of the Value Engineering Team for the construction of this new light rail transit system.

F. General Experience Summary

Please provide a brief description of your experience in 25 words or less. If you are approved to be a DRB candidate, this information will be included next to your name on the Dispute Review Board Candidates List posted on MDOT's website.

Description:

DRB boards for tunnel/cavern construction; heavy construction Contractor Project Manager; Navy DPW Resident Engineer; Engineer for D/B structures/building underpinning; Westchester County, NY Commissioner of DPW.

G. DRB Experience (include past and current experience if applicable)
